

Join us on our Anti-Nuclear Sailing Trip!

Ready to go about the energy revolution?
Ready! Going about.

Call for **IDEAS** and **ACTIONS** around the Baltic Sea coast!

The AntiNuclearNetwork NorthEast Germany (AntiAtomBündnis NordOst) – is planning a sailing trip against nuclear power, on which we want to cruise through the Baltic Sea and get active, be creative and also visible for the public.

Close to the former nuclear power plant and present interim storage facility for nuclear waste (located right at the coast 50km west of the German/Polish border) we started our network in autumn 2010. We did lots of actions and campaigns to protest against two transports of highly radioactive waste to Lubmin and atomic power in general. Now we want to set to sea to exchange, network with people from other countries and get active together.

We are heading for the late summer of 2012 – The anti-nuclear sailing trip will take place from the **26th of August until the 9th of September** and the ship will sail **from Stockholm to Greifswald.**

That's all that is fixed. For everything else we need you and your ideas!

We invite all active people especially from countries around the Baltic Sea to join us and take part in this sailing trip for a future without nuclear power!

For two weeks we will sail and live on the „Lovis“ - a big traditional sailing ship with an interesting history, a nice atmosphere and the mission of bringing people together and giving them room for a joined experience of exchanging, sharing and learning (www.lovis.de). We will be on board the „Lovis“ on the last stage of its tour along the Baltic Sea coasts and bring our joined message to all the harbours and stops that we will pass on our trip.

Carried by wind and waves, the message and activities for a worldwide stop of nuclear power will be the constant focus of our cruise. There is enough room for creative, steaming heads, heaps of discussions, for visible actions in different cities, exchange of experience and knowledge and for tying knots and strengthening nets.

If you or your group have ideas and want to join us, if you want to tell others about our plans, if you want to be part of the planning team or organise some action for one of our stops or if you want to support us and take part in any other way,

please contact us:
